COMPANY PROFILE

We as a Sachin sales corporation are in trading business since 1996. as my father was taking care up to September 2017, he was dealing in some specific, fabricated and scientific items, as I was associated with Baroda base MNC companies unit as a manager materials, but looking to fast growing technology and cut throat competition along with cost saving projects and to provide a transparent solutions and services to work with customer as a business partner to achieve win situation by earning trust in them, I decided to join the same since September 2017 to grow, also we expect some good.

I do think that to work together as a business partner we should have transparency, which would help to get cost cutting projects along with qualitative services.
